TAILOR-MADE EXPERIENCE VINTAGE CAR RESTORATION

Be fascinated by the refined technique of metal working, aimed at restoring the original form of the most expensive and prestigious cars. The restoration phases can be in-depth and involve not only the bodywork, but also parts such

as the engine, upholstery, the electrical system, mechanics, and paint finish.

This work is based on experience and a series of exclusive tools that were built up over time. But most

of all, it' the craftsmen that make the difference: the men who work “hands-on” in the cars, to pass on their strong historical roots and expertise needed to work the metal, strike after strike.

FOOD VALLEY

Enjoy a typical light lunch in a farmhouse, then stop for a visit to an outstanding traditional balsamic vinegar's producer (called “*acetaia*”) where is prepared and aged the “black gold” of ingredients: taste the different kinds of vinegar – from 12 to more than 25 until 50 years aged - trying it with *gelato* and *Parmigiano-Reggiano* cheese.

Experience a food tour in the city farmers market with a local friendly chef who will guide you looking for the best ingredients to prepare lunch; afterward join the kitchen where you will experience a private cooking class preparing, under the chef's careful guide, a typical Bolognese lunch, starting from how to make the *sfoglia* for *tortellini* and *lasagne*.

Don't miss a tasting of the several specialties of the region: Parma ham, *culatello di Zibello*, *salame Felino*, *coppa di Parma*, *mortadella di Bologna*, accompanied by local bread as the fried *crescentine* and the small *tigelle*.
